PROFILE

As a highly skilled Web and Mobile Developer with over 5 years of hands-on experience, I have a deep expertise in building and maintaining robust mobile and web applications. Proficient in modern technologies such as Nuxt.js, Next.js, Flutter, and PostgreSQL, I consistently deliver high-quality solutions tailored to project requirements. At PT Traspac Makmur Sejahtera, my current role involves not only fixing bugs reported by QC teams but also actively participating in the end-to-end development of web and mobile projects. My flexibility in handling both front-end and back-end development has enabled me to provide comprehensive support across multiple projects. I am passionate about innovation, problem-solving, and driving improvements that enhance user experience and project performance. I thrive in collaborative environments, consistently pushing for scalable, efficient, and user-focused solutions.

EMPLOYMENT HISTORY

Jul 2019 — Present

Fullstack & Mobile Developer, PT Traspac Makmur Sejahtera

Jakarta

- Developed and maintained mobile and web applications using Nuxt.js, Laravel, and Flutter.
- Collaborated with cross-functional teams to fix bugs reported by QC, ensuring the stability and reliability of applications.
- Implemented new features and improvements across multiple projects to enhance user experience and meet project specifications.
- Actively participated in all stages of application development, from planning and design to deployment, contributing to both front-end and back-end development.
- Provided ongoing support for live applications, monitoring performance and addressing issues to ensure optimal operation.

Jan 2021 — Present

Freelance Web & Mobile Developer

- Designed and developed custom web and mobile applications based on client briefs, ensuring their specific requirements were met with high-quality, scalable solutions.
- Worked closely with clients to gather detailed project requirements, providing technical guidance and solutions to optimize functionality and user experience.
- Built responsive, user-friendly web applications using Next.js, alongside mobile applications developed in Flutter.
- Managed the entire development lifecycle, from initial concept and design through to final deployment and post-launch support.
- Maintained clear communication with clients throughout the project to ensure alignment with goals and deliverables.
- Continuously provided updates and improvements based on client feedback and ongoing user testing, ensuring long-term application success.
